November 1, 2018

To our customers:

We know that many of you are directly impacted by legislation regarding conflict minerals., specifically the Dodd-Frank Wall Street Reform and Consumer Protection Act, which require publicly traded companies that manufacture products containing conflict minerals (tin, gold, tantalum, or tungsten) to annually report to the Securities and Exchange Commission.

Midan Electronics is a privately held distributor of electronic components. We do not manufacture, nor do we contract to manufacture, the products we sell, so we are unable to complete the Conflict Minerals Reporting Template (CMRT) that you may have requested from us. However, we will pass the request for a CMRT on to our vendors and manufacturers, and we will gladly give you the information once we acquire it.

Midan Electronics has no intention of procuring parts where such procurement would benefit those perpetrating human rights violations in the Democratic Republic of the Congo or adjoining countries.

Please be assured that we understand the importance of this issue, and we will use our best efforts to assist you, our customer.

Sincerely,

Mark D'Angelo  
Vice President/General Manager
